

# NOD32

## antivirus system

### we protect your digital worlds

#### Highest detection rate in the industry

NOD32 provides protection against **Viruses, Worms, Trojans, Spyware, Adware, Riskware, Rootkits, Phishing** and other malicious threats.

NOD32 holds the highest detection rate of all antivirus systems on the market, being the only one which has not missed a single 'In the Wild' virus for over 8 years, since testing began in May 1998 by Virus Bulletin.

#### World record holder of Virus Bulletin 100% Awards – 42<sup>nd</sup> award received February 2007

Virus Bulletin is the worlds leading authority on virus recognition, detection and removal and has continuously tested all antivirus products since 1998. NOD32 holds the record for their Virus Bulletin 100% Awards, obtaining the 42<sup>nd</sup> award in February 2007.

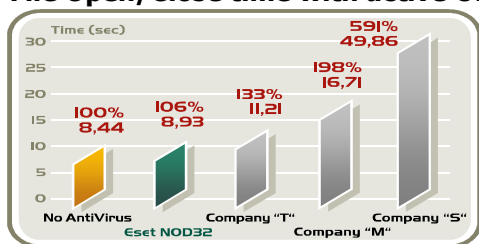

#### Advanced Heuristics detects the viruses of tomorrow today

The NOD32 ThreatSense engine detects up to 92% of new viruses without the need for a signature update. Due to the pro-active nature of NOD32, users are protected immediately.

#### Fastest Antivirus Solution in the World

NOD32 holds the record for the fastest scanning rate of any of the antivirus products available. In independent tests NOD32 is between 2 and 50 times faster than other competing products. The fast scanning rate enables systems to run virtually as fast as they would with no antivirus protection installed.

#### Excel File Open/Close time with active On-Access Scanner

Tested Products	Time (sec)	Delay (%)	o	n
No Antivirus	8,44	100%	0,126	10
Eset NOD32	8,93	106%	0,062	10
Company "T"	11,21	133%	0,265	10
Company "M"	16,71	198%	0,101	10
Company "S"	49,86	591%	0,129	10

#### Smallest System Footprint in the Industry

With the smallest system footprint in the industry, slowed network and CPU performance is not an issue for end-users and IT administrators, as NOD32 consumes less than 20 MB of memory.

#### Awards & Certifications

- Virus Bulletin – 42<sup>nd</sup> Virus Bulletin 100% Award February 2007
- West Coast Labs - Checkmark Certification for **Anti Virus 1, Anti Virus 2, and Anti Spyware**
- ICSA Labs

#### Simple to Install, Setup & Administer

- Simple to install from internet download
- Automatic updates at user defined intervals
- Intelligent update options for computers on dial up
- Updates performed on the fly with no reboot required
- Remote Administration available for managing networks

#### Traditional Anti Virus Solutions

- Detect known Viruses only
- Slow down users computers
- Interfere with users applications
- Take a considerably long time to scan

#### Good Value for Money - with no hidden costs

- Software Updates - Included
- Signature Updates - Included
- Unlimited Worldwide Support - Included

#### NOD32 Anti Virus System

- Detects up to 92% of new unknown viruses
- Has the smallest footprint in the industry
- Has a high user compliance
- Has the fastest scanning rate
